Benefit for the Martell Family Foundation, www.trailstobridges.com

Country Springs Hotel
2810 Golf Rd, Waukesha, WI

Deb Martell is a 9 year survivor of stage 3 breast cancer. Deb and her husband live in Hartland and have four children. She was recently diagnosed with acute myeloid leukemia. The AML is in remission, and a bone marrow transplant will provide the best opportunity for a cure. The cost is estimated at over \$600,000....80% of which is required before the hospital will admit her. . . and she needs the transplant now while the cancer is in remission. This foundation exists to help the Martell family with these extraordinary expenses as the Martell's insurer has regrettably denied coverage for the transplant. She is hoping to begin that transplant process yet in December.
